

Middle School Career Exploration

“ Preparing for Careers & Education in the 21st Century “

This event is for SRVUSD middle school students and their parents to explore pathways to 21st Century Careers and learn about the opportunities and resources available in the district to prepare for them. Attendees will have the opportunity to hear from students who graduated from SRVUSD and are currently working in careers such as *engineering, biotechnology, culinary arts, sports medicine and multimedia/recording*. There will also be an opportunity to talk to high school students taking career pathway courses and tour the College & Career Center and Career Technical Education (CTE) facilities that exist at each of the district's comprehensive high schools. College & Career Counselors from each of the high schools will be present. It is never too early to start planning for the future. This event is a valuable and appropriate experience for all 6th, 7th, and 8th grade students.

REAL WORLD CONNECTIONS

The SRVUSD offers a broad spectrum of programs and resources in response to the challenges students face from a constantly changing global economy. These include courses that provide students with academic subject matter taught with relevance to the real world, and pathways that link secondary and postsecondary education. Access to these programs begin in middle school and bridge into high school. This event will help students begin to think about planning for college & careers and learn from experts in Industry and alumni who followed these pathways to successful careers.
