and Montalvo Arts Center present**

The Arts in Your Classroom 2008

A Conference for K-8 Educators Exploring Learning Through the Arts

K-8 educators are invited to participate in **The Arts in Your Classroom 2008**, the sixth annual professional development conference which invites both first-time and returning participants to explore learning through the arts.

Participants will engage in arts-based and arts integrated workshops that delve into the artistic processes of *envisioning*, *experimenting*, and *exploring*. Presenters will guide reflection on connections among learning the arts and in other core content areas. Conference workshops are designed to provide a fresh understanding of the importance of the arts in student development and a renewed sense of creativity.
