

Dr. Peggy Sharp

What's New in Children's Books?

October 27 and 28, 2008

Dr. Peggy Sharp is well known for her presentations about new children's books, connecting the books to all areas of the curriculum and motivating children to read. She is an experienced teacher and library media specialist and has received national awards for her creative teaching ideas.

Children's literature is better than ever but many children's books and language arts seminars discuss the same familiar titles. Not so with this workshop. She will share the best new children's books and share highly practical strategies for using this literature in all areas of your curriculum. Participants will learn of outstanding instructional strategies to help students get the most out of the new books without destroying the pleasure of reading. Many of the newly published titles will be available for participants to personally review and participants will receive booklists that will be invaluable in planning instruction.
