

Leadership Support Services – L.E.A.R.N. (Leadership for Educational Administrator’s Resource Network)

L.E.A.R.N. Goals:

- Create a network for principals / administrators to discuss, share successes, and have reflective conversations about the “work”
- Examine & implement effective, research-based strategies that accelerate student achievement
- Focus on systemic change for increased achievement, effective leadership, embedding collaborative processes, and aligning instruction to close the gap

What you will learn:

These breakfast meetings will provide an opportunity for you to network with other administrators to share your success and to gain ideas for tackling your current struggles.

We will examine the research on high-performing schools and districts, and then apply those methodologies and protocols to align curriculum, create school cultures that focus on student learning, provide effective instruction and intervention, address equity issues, and implement plans for meeting improvement goals.

Why we should do this:

“If you want to lead, you must learn.
If you want to continue to lead, you
must continue to learn.”

– John Maxwell

At the October 9th meeting we will discuss and determine the topics for the remaining breakfast dates.

DATES:

October 9: 7:30 – 9:00am
“Turning Around Chronically Low-Performing Schools” study by REL West

December 9: 7:30 – 9:00am
ELL students and closing the achievement gap
