

# Support for Understanding and Implementing the Common Core Standards for Mathematics

These sessions focus on the standards for mathematical practice and tools for formative assessment that will help students become more proficient in their approaches to learning mathematics including:

- ☆ Make sense of problems and persevere in solving them
- ☆ Reason abstractly and quantitatively
- ☆ Construct viable arguments and critique the reasoning of others
- ☆ Model with mathematics
- ☆ Use appropriate tools strategically
- ☆ Attend to precision
- ☆ Look for and make use of structure
- ☆ Look for and express regularity in repeated reasoning
